PRICE LIST

NOBLE NURSERY

Noble, Oklahoma

The following prices represent real tree and plant value direct from the grower. No agent's commission or middleman's profit to pay if you deal with us. This little folder is our only traveling salesman. His salary and expenses for the year amount to about three cents. The saving to us and to you is easily seen by comparing our prices with those asked by the tree peddlers who visit you from time to time.

Over 20 years experience in growing trees and plants here at Noble in south central Oklahoma demonstrates fully that in the production of high class nursery stock, our soil and climate are unsurpassed. You cannot buy better trees than ours, no matter what you pay.

We are growers of what we sell. Practically everything we offer is grown here and may be seen in our own fields. The maintenance of our present scale of prices depends upon the production of stock in moderate quantities, and upon selling off close each season with as little waste as possible. Many items are always sold out early. We hope to have sold most everything before the spring planting season ends, hence we urge our friends to place orders as soon as possible while the stock is unbroken.

PEACH TREES—Budded 1-year tops, 2-year roots. Not "June buds." 2 to 3 ft., 10c; 3 to 4 ft., 15c; 4 to 5 ft., 20c; 5 ft. and up, extra size, 25c. Our stock runs large'y to the heavier grades this season, the supply of 2 to 3 ft. peach being rather short.

June Varieties—Mayflower, Neva Miss, Wheeler Cling, Alexander, Carman.

July Varieties—Triumph, Mamie Ross, Japan Blood, Early Crawford, Hiely, Ray.

August Varieties—Champion, Belle of Georgia, Lee Cling, Indian Cling, Old-mixen Cling, Amrein Cling, Elberta, J. H. Hale, Capps, White Nectarine, Red Nectarine.

Later Varieties—Salway, Crosby, Stump,

Late Crawford, Indian Free, Heath Cling, Everett Cling.

Two Year Peach—Grades slightly heavier than 1-year trees. Prices the same. Varieties—Mayflower, Japan Blood, Mamie Ross, Lee Cling, J. H. Hale, Elberta.

PLUM TREES—Budded, 1-year and 2-year, 2 to 3 ft., 15c; 3 to 4 ft., 25c; 4 to 5 ft., 50c. A few choice, extra heavy trees in some varieties, 75c.

Old Varieties—Red June, Gold Burbank, Wickson, Damson.

New Hansen Hybrids, originated by Prof. Neil E. Hansen of Brookings, South Dakota, introduced by a South Dakota nursery. First offered here by us six

PRICE LIST—NOBLE NURSERY, NOBLE, OKLA.

years ago, except Waneta, which is more recent. They are an extraordinary addition to American horticulture, being of good size, high quality and very prolific. They always bear very young. We have known several trees to ripen from one to three quarts of plums each at sixteen to eighteen months after planting. Listed approximately in order of ripening, covering four to six weeks. We sell them at same prices as other plums. Most nurseries ask more. Opata, Sapa, Cheresota, Wachampa, Sansota, Eyama, Waneta, Ezaptan, Kaga, Hanska, Toka.

APRICOT, Hardy Almond and Compass Cherry Plum same price as plums.

CHERRY TREES—One year budded, 3 to 4 ft. and up 75c. Good supply. 2 to 3 ft., 50c. Limited supply.

Varieties—Early Richmond, Large Montmorency, Montmorency Ordinary, English Morello.

Moulton Sweet Cherry—Either a new variety or an unidentified European variety growing at Moulton Fruit Farm, west of Oklahoma City. Bore five good crops in succession. Large, meaty, light red, mid-season, high quality. A sweet cherry that will thrive here and produce good crops has been a long felt want among orchardists. This one has satisfied Mr. Moulton of its ability to deliver the goods and he is planting several acres of them as rapidly as we can grow the trees for him.

We offer a limited number of choice 1 year trees, 4 to 6 feet, at \$2.00 each.

APPLE TREES—1-year grafts, 3 to 4 ft. and up, 25c; 2 to 3 ft., 15c.

Summer Varieties—Early Harvest, Live-land, Golden Sweet, Wilson June, Summer Pearmain, Boomer, Maiden Blush, Wolf River, Wealthy.

Fall Varieties—Grimes' Golden, Jonathan, King David, Delicious, Fall Orange, Rambo.

Later Varieties—Ben Davis, Missouri

Pippin, Gano, Winesap, Black Ben Davis, Stayman, Mammoth Black Twig, Oklahoma Keeper.

Crabs, same price. Whitney, Hyslop.

Two Year Apple Trees, we do not have this season, but can furnish them f. o. b. Kansas shipping point at 50c each for No. 1 size, 30c each for No. 2 size; five or more of a kind.

PEAR TREES—1-year and 2-year budded or grafted, medium size 50c each. A few extra heavy trees, 75c each.

Varieties—Manning, Bartlett, Mission, Garber, Keiffer.

GRAPES—Choice 1-year vines, well rooted. Dozen, \$1.50; per 100, \$10.00. No. 2 vines half price. This is less than one-third what some nurseries ask for similar stock.

Black or Purple—Champion, Campbell's Early, Telegraph, Carman, Clinton, Concord.

Red or Brown—Brighton, Lucile, Salem, Agawam, Dracut Amber, Catawba.

White or Light—Diamond, Niagara, Elvira, Goethe.

BERRIES—We grow a few acres of Blackberries for market and have tested several varieties without finding one worth planting here except Early Harvest, which bears a good crop of marketable fruit each season.

Choice nursery grown plants, per dozen, 50c; per 100, \$3.00; per thousand, \$25.00. Every plant a good one. Second size nursery plants and sucker plants from the field, half price.

Raspberries and Dewberries—\$3.00 per 100.

Everbearing Strawberries—\$2.00 per 100.

Common Strawberries—\$1.00 per 100.

Strawberries are not shipped with other stock, but go out by parcel post in time for spring planting. If wanted in thousand lots and up, write for prices.

PRICE LIST—NOBLE NURSERY, NOBLE, OKLA.

THORNLESS DEWBERRY—A new novelty of great merit, which promises to supercede all thorny varieties. Good bearer. Try it. Dozen \$1.50; per 100, \$10.00.

DWARF JUNE BERRIES, per dozen, \$1.50. This is the old fashioned service berry grown in great abundance on little bushes 2 to 3 feet high. Try them.

THOBURN CURRANTS—Introduced by us last season after several years trial. Collected from western Kansas and Oklahoma and eastern Colorado by former Secretary of Agriculture J. B. Thoburn. The bushes resemble those of the wild black currant found all over this country, and are just as hardy here and much more prolific. Instead of black, they bear dull red, bright yellow, yellow with red stripe and greenish amber colored fruits of good quality, highly prized for pies, jellies and preserves. May be used either green or ripe and make a very acceptable substitute for gooseberries or for the eastern garden currants, none of which grow here with any marked degree of success. Per dozen, assorted, \$2.50.

FIGS—Not hardy here. Though killed back by freezing, they sprout from the stump and bear good fruit nearly every year. Banking up in the fall with a foot of earth is helpful. 1-2 ft., 25c; 2 to 3 ft., 50c each.

RHUBARB, WINEPLANT OR PIE-PLANT—The best variety we ever saw; big, early, pink tender stalks. Does not make seed and is propagated only by dividing the old crowns. Strong Divisions, per dozen, \$1.50; per 100, \$6.00. Linnaeus Seedlings, half price.

ASPARAGUS—Two-year roots, dozen 35c.; 100, \$2.00.

GARDEN SAGE—Good rooted clumps, each 25c.

SHADE TREES—There is one best shade tree for this section. It grows naturally into an immense umbrella top with-

out pruning and is never attacked by bag worms, scale insects, aphids, army worms or fungus diseases, hence requires no spraying. It grows on tight hard soils with half a chance, but under good conditions makes shade right now.

We have hundreds of them, 1-year tops on 2-year roots, that have straight stems 1 1/2 to 2 inches in diameter at the base, 8 feet high and carrying, on the upper third of their length, well balanced tops with a spread of 4 to 6 feet, every inch of which has grown from the stump since April. These trees with good soil and attention will make a spread of 8 to 10 feet in one season and become real shade trees the next.

We can show you specimens with a spread of 30 to 50 feet or more, at ages varying from 8 years up, or others of this variety growing and thriving on poor soil where for ten years the common sorts had utterly failed though planted repeatedly and given the very best of care and attention.

Why waste time and money on doubtful sorts when you can plant the Non Bearing, English, Paper White, Barren, French or Male Mulberry, as it is variously known, and grow shade in time for this generation to enjoy the benefits. Our stock of this excellent variety is quite extensive and their quality is sure to please. 1-year trees, 7 to 8 ft., \$1.00 each; 6 to 7 ft., 75c; 5 to 6 ft., 50c; 3 to 5 ft., 25c each. Smaller sizes \$1.00 and \$2.00 per dozen.

Maples, Poplars, Elms and Catalpas at corresponding prices.

Catalpa Bungei—\$1.50 to \$2.50 each.

ROSES—Everblomers, Teas, Hybrid Perpetuals, Ramblers, etc.. American Beauties, Killarneys, Cochets, Russell, Sunburst, Kaiserin, about 30 choice varieties, both own rooted and budded plants, field grown, 50c each, \$5.00 per dozen.

EVERGREENS—Our Evergreens live and grow because we handle them right. Red Cedars, all sizes, single plants, 25c

PRICE LIST—NOBLE NURSERY, NOBLE, OKLA.

to \$1.00 and up. Small sizes in quantities as low as \$12.50 to \$15.00 per 100. A dozen other varieties growing well here, priced at \$1.00 to \$2.50 each. Pine, Juniper, Box, Holly, Arbor Vitae. Consult us about your needs in this line. We will give you A-1 service.

CALIFORNIA PRIVET FOR HEDGING—Heavy, well branched, 2-year plants, per 100, \$7.50; heavy 1-year and medium 2-year, per 100, \$5.00; light stock 12 to 18 inch, per 100, \$3.50.

We are growing several varieties of Privet. The California is most popular here, being almost evergreen, and does not blight.

VINES FOR PORCHES AND ARBORS—Purple and White Wistaria, Ampelopsis, English Ivy, Kudzu, Clematis paniculata, Scarlet Trumpet, Honeysuckle in assortment. Heavy vines 50c each, dozen \$5.00. Light or medium vines, half price.

HARDY SHRUBS—Japonica, Lilac, white and purple; Althea, all colors; Tree Honeysuckle, white and pink; Wiegela, white and pink; Spirea, five varieties; Deutzia, Pussy Willow, Philadelphus, Japan Barberry, Flowering Almond, Snowball, Hydrangea, Forsythia, Golden Elder, Fern Leaf Elder, Dogwood, Golden Osier Willow, Crepe Myrtle.

Heavy field grown plants 50c each. Straight dozens \$4.00; assorted dozens \$5.00. Second size plants half price.

Every once in a while some scalawag breaks out in a new place with the story that our nursery has been condemned. Pay no attention to such rot. Since 1905 we have passed official inspection each summer. Under the law no nursery can do business in Oklahoma without inspection, and every shipment must carry a copy of the current year's health certificate. Watch for it.

Our business has been built upon the principle of giving each of you your money's worth, full value for every dollar you spend with us. If we succeed in pleasing you tell your friends about it. If we fail tell us, and if the fault is ours we will thank you for the chance to make it right. Come and see us.

HARDY BULBS—Earliest known flowers. Often bloom in the snow. Others follow through April and May. Sold for fall and winter planting only. Crocus, per dozen, 35c. Mixed early Tulips, per dozen, 50c. Mixed late Tulips, per dozen, 50c. Named Tulips, separate colors, early or late, per dozen, 75c. Hyacinths, named colors, per dozen \$1.00. Peonias, all colors, each 50c; 2-year clumps \$1.00 to \$1.50 each.

TENDER BULBS—For spring planting only. Cannas, Tube Roses, Gladiola; per dozen, 75c. Dahlias, all colors, per dozen, \$2.00.

HARDY PERENNIALS—Sweet Violets, Shasta Daisies, Dwarf Purple Iris, Santaline, Achillea. Divided sets \$1.00 per dozen; field grown clumps 25c; extra heavy clumps, 50c each. Hollyhocks, superb mixture, all colors, single and double 50c per dozen, \$3.00 per 100. Golden Glow, Stokesia, Yellow Day Lily, Gaillardia, Hardy Phlox, Ornamental Grasses, each 25c, per dozen \$2.50.

HUBAM, the new annual sweet clover. Greatest soil renewer ever discovered. Does in one year what the old biennial variety did in two. Planted in April, cut for seed crop in August, averaged 5 ft. high. One-half pound will plant an acre in drills 3 feet apart, five pounds will sow an acre.

Clean, unhulled seed, per 1-2 lb., \$1.00; per lb., \$1.75; 10 lbs. for \$16.00 postpaid. Seed sold last year at \$8.00 per pound.
